

Dışında Ne Var? İçinde Ne Var?

İç Donanım Birimleri:

- 1- Güç Kaynağı
- 2- İşlemci
- 3- Anakart
- 4- Sabit Disk
- 5- Ram Bellek
- 6- Ses ve Ekran Kartı

Dış Donanım Birimleri:

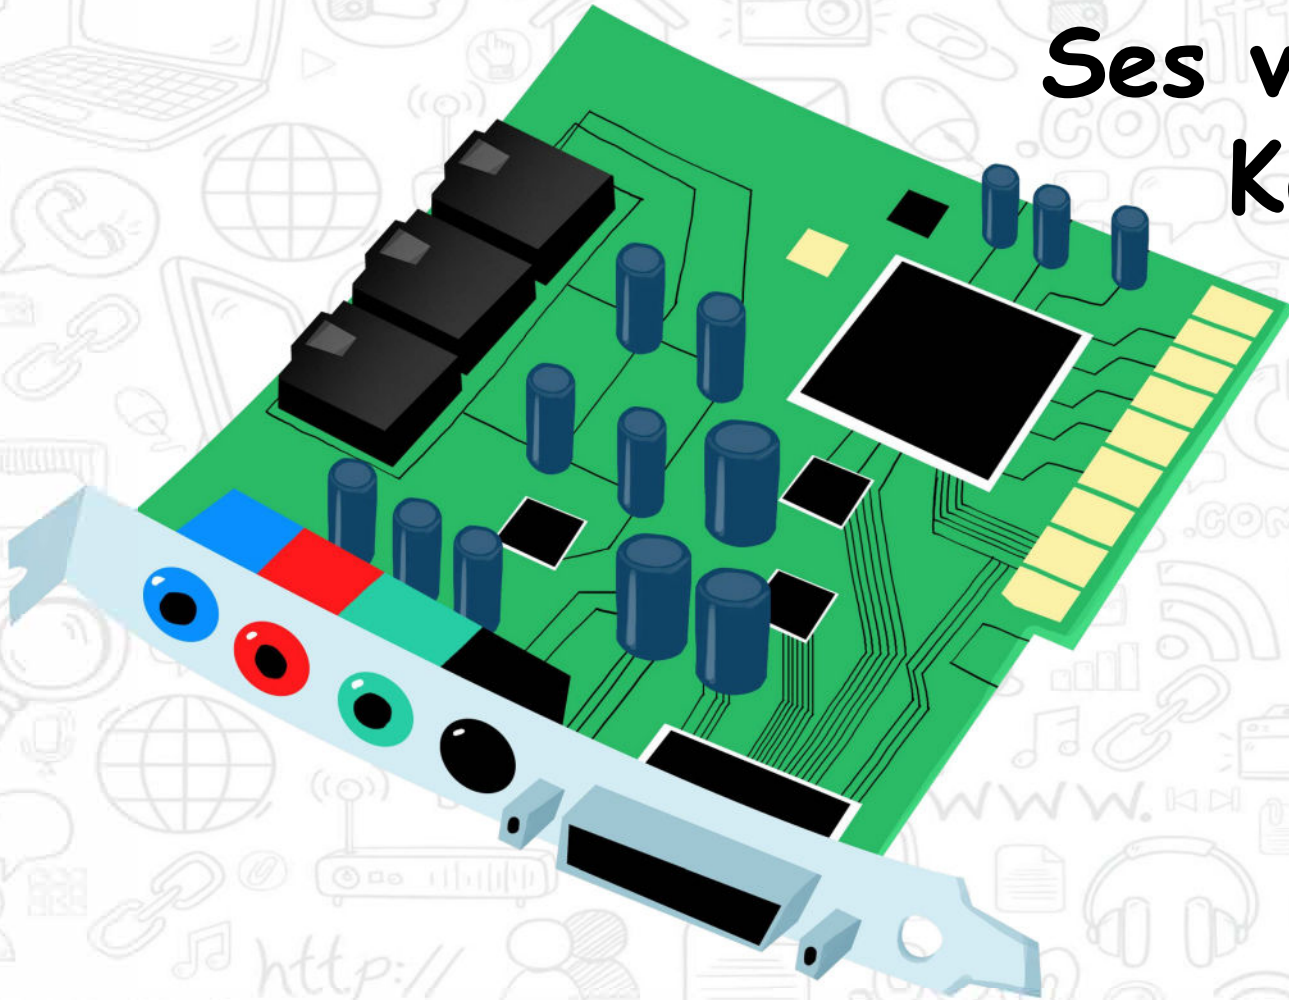

- 7- Ekran
- 8- Klavye
- 9- Fare
- 10- Yazıcı
- 11- Kulaklık
- 12- Mikrofon

A blue, cube-shaped robot with large, expressive eyes and a spiral antenna. It is connected to a computer mouse by a black cord. The background is white with faint, light gray icons of various electronic devices and symbols, including a globe, a speech bubble, a hand, a USB drive, a monitor, a keyboard, a mouse, a person, a document, a headset, and a network diagram.

Disk

A stylized, isometric illustration of a yellow computer motherboard. The board is populated with numerous components represented by simple 3D shapes: black square chips, blue rectangular modules (likely RAM), white and blue connectors along the edges, and a central square area representing the CPU socket. Small white spheres are scattered across the board's surface. The background features faint, light gray icons related to technology and computing, such as a thumbs up/down, a USB drive, a keyboard, a document, a Wi-Fi symbol, a music note, a power button, a network router, and a person at a desk.
